BAY COLLECTION

10301 East Bay Harbor Drive

The Bay Collection is an oasis designed to stand apart for its beauty, sustainability, and overall sense of refined ease. This glass-clad modern building designed by Kobi Karp Architecture with a soft, natural interior palette features 9 residences. The waterfront location offers boat slips, waterside amenities, and a landscaped rooftop pool deck.

The interiors are designed with the outdoors in mind. Large terraces function as outdoor rooms and create a true indoor-outdoor living experience. Glass-clad, with no solid walls to the outside, these residences are filled with abundant natural light and direct sea breezes that flow from room to room. The architect's intention with this design element is to reconnect to the natural environment, which is ideal for this prime bayfront setting.

Boasting the best panoramic views of the bay from sunrise to sunset, Bay Collection embodies the epitome of Tropical Living.
